Personal Profile

I am a highly-motivated Frontend Developer, a good team player, hard-working, responsible and independent with perseverance, creativity, dedication and passion for coding.

I am enthusiastic about Frontend and it is important for me to do my work with a high quality and professionalism to keep customers and end users happy with the final product. And I believe that I can bring many benefits to your company.

Now I am focusing on React, React Native & Node, and ideally would like to find a remote job with interesting modern projects surrounded by talented, active and motivated colleagues. I enjoy learning new things and I'm ready to learn fast any modern technologies useful for work.

My long term goal is to become at least a Senior FullStack JS Developer, by using most of all modern technologies, tools and frameworks, to develop desktop and mobile web interfaces and applications.

Core Skills

- | | | |
|--------------------------|--------------------------------|--------------------------------------|
| • Markdown / Html | • Git / GitHub | • Photoshop |
| • Css / Sass | • Webpack | • Figma |
| • JavaScript | • Node | • Inkscape |
| • TypeScript | • Bem | • Linux (basic) |
| • React | • Jest | • SQL |
| • Redux | • React Testing Library | • English B2+ |

Career Summary

May 2022 – Present

RsSchool, Node course

I am looking for a job and at the same time I am going to take a course on Node and to study React Native.

March 2022 – May 2022

RsSchool, React course

During the course, managed and unmanaged components were studied, class and functional components, work with forms, Portals, Redux, tests were written using Jest and React Testing Library. Also I used Flickr and LocationIQ to get the place where the photo was taken based on latitude and longitude coordinates given from Flickr Api.

September 2021 – March 2022

RsSchool, JavaScript course

During the course, I studied: Git, Github, JavaScript, TypeScript, Webpack, Markdown, VS Code, Figma, basic Node, a presentation was made in English using reveal.js, I passed several interviews on JavaScript and made many interesting projects, [see my portfolio for more details](#).

May 2021 – September 2021

Freecodecamp.org, educational videos, my pet projects

I studied at freecodecamp, read books on html, css, js, practiced layout, made several of my own projects, for example, "The golden watch" and "Timer cat" with javascript.

2017 – May 2021

MSU scientific library Librarian

I was responsible for the Department of Mathematical and Programming Literature, writing off the old one and registering the new one, and also for issuing books to readers.

Working in the library gave me the time I needed to deal with family matters that required a flexible schedule. During this time, I developed my soft skills, read many books on time management, self-development, psychology and building a successful career. I learned to drive a car, fell in love with languages and greatly improved my English, and also decided on the direction in which I want to build a career and develop in the future.

2015 – 2016

CJSC "Alsi Pharma" Programmer

I worked as a **1C programmer**, improved the current configuration of the enterprise system, maintained and improved the old code, and also wrote new functionality. I also maintained 2 existing projects in **C#** and wrote in **C#** with **SQL** from scratch a site parser through a proxy.

During my work I was promoted.

2011 – 2015

Math tutor

I helped schoolchildren prepare for final exams and university entrance exams.

Education

In 2015 I graduated from "**Lomonosov Moscow State University**", have successfully completed a **Specialist** programme in "**Applied Mathematics and Computer Science**" and have been awarded the qualification of "**Specialist in Mathematics and System Programming**".

Hobbies

I enjoy spending my spare time doing pet Frontend projects, gaining new skills and constantly improving my English: I love reading books in English, watching different useful videos about programming and communicating in English with some of my friends. I also like expanding my horizons by traveling and hiking.
